# Graduation ceremony of the Master in Peacekeeping and the Executive Master in Post-Conflict State Reconstruction

In parallel to this graduation ceremony, EMP-ABB's Center for Analysis and Research on the Sahel-Saharan Space (CARESS) conducted **the final evaluation of applicants for the second session** of its Master's degree in Peacekeeping and Post-Conflict State Reconstruction. This last step took place from Thursday, July 22 to Saturday, July 24, 2021, and consisted of individual interviews to get to know the applicants better. It also allowed to test the solidity and the relevance of the applications, before the integration to the training.

At the end of the different selection stages of the second cohort, the committee retained a total of **40 auditors, including 09 women**. We are confident that this second cohort will benefit from the same support from the many historical and strategic partners of the **EMP-ABB**.

As an extension of its **policy of energy autonomy and reduction of its impact on the environment**, EMP-ABB started on Thursday, **July 15**, the realization of its water drilling. This work, financed by Japan, reinforces EMP-ABB's capacity to use renewable energy.

This step is a will to mark the importance and the necessity of the taking into account of the climatic changes and the impact that they have on the **living conditions of the populations**. Indeed, many inter-community conflicts originate from competition for access to resources.

During the month of July 2021, the Ecole de Maintien de la Paix Alioune Blondin Beye de Bamako (EMP-ABB), had the opportunity to start thinking about new projects and continue the implementation of those already underway.

We can mention among others:

**Monday july 12** – Discussions around the planning of the gender project with the Program Officer of the Norwegian Embassy in Mali, Mrs. Mariam Dicko.

**Thursday july 15** – Collaboration with the association Promediation in the context of conducting trainings in Gao.

**Wednesday july 28** – Working session with GIZ on the FREXUS project to improve security and resilience to climate change in fragile contexts and through the Water-Energy-Food Security nexus.

**Friday july 29** – Courtesy visit to H.E. Carlos Eduardo De Ribas Guedes, Ambassador of the Federative Republic of Brazil, and identification of partnership axes.
