## 40<sup>th</sup> Edition

### 'The dynamics of conflict in the Sahel, a different perspective' and 'The price to pay'

The Alioune Blondin BÈYE Peacekeeping School (EMP-ABB) in Bamako, through its Centre for Analysis and Research on the Sahel-Saharan Region (CARESS), held the 40th edition of its book club on Thursday, 11 December 2025, in the CARESS documentation room.

The two works presented during this session were:

- 'The dynamics of conflict in the Sahel, a different perspective' by Mr Alassane Maiga;
- and 'The price to pay' by Mr Malick M'Baye.

Mr Maiga's book offers a powerful and in-depth analysis of the crises affecting the Sahel. By exploring the historical, social, economic and political roots of these conflicts, the author highlights factors that are often overlooked or underestimated, offering a new and illuminating perspective.

As for Mr M'BAYE, he revisits African society, culture and traditions through a collection of short stories that invites reflection on the consequences of certain practices in force.

As usual, the question-and-answer session allowed participants to contribute to the discussions and gain a deeper understanding of the books presented.

For this edition, the Reading Club brought together CARESS members and Club members, including researchers, doctoral students and CARESS master's students, as well as the parents, friends and supporters of the two authors, who enriched the discussions with their contributions.
